SHUT DOWN THE **NATO** **SUMMIT** D E M O

Take action! Join the demonstration on 22 May against NATO's meeting in Helsingborg. This is an invitation to join the resistance. Together we will shut down NATO's meeting!

Sweden will host an informal meeting of NATO ministers of foreign affairs in Helsingborg on 21-22 May 2026. This is the first time a NATO summit is held on Swedish ground, marking the country's official entry to an organization which is responsible for decades of untold death, violent acts against humanity, and wars fought to protect western business interests and resource supply routes. During the meeting, there will be over 2000 individuals - delegates, officials, security experts, and journalists - accompanied by an army of police, secret service and the military protecting NATO's ministers and world rulers.

When the representatives of NATO show their ugly faces in Helsingborg,

we will be confronting them with our actions of diverse and colorful resistance and our idea of world solidarity. We plan to be in Helsingborg to disturb the plans of some of the planet's oppressors

This is an invitation to our comrades, companions and friends from all over the world: Join the demonstration against NATO in Helsingborg on 22 May 2026! The autonomous and anti-authoritarian left has confronted the rulers in many fights: we have strength in numbers, and so long as we are many and unpredictable - no amount of repression can stop us. We invite you all to join us in the streets of Helsingborg!

Shut down NATO! Another world is possible!
